1. The Czechoslovak Minister of Industry, Bohumil Lausmann, visited the Bor mines last November to negotiate a copper transaction for the Skoda Works. He also visited many Serbian industrial factories including the Kragujevac arms plant and the Obilicevo ammunition and poison gas factory.
2. The copper production of the Bor mines is reported to have reached its production quota 52 days ahead of schedule. Preparations were made last December for refining copper and producing copper wire and electric cables.
3. The Bor mines also delivered 1572 Kg. of gold to the Government. The damaged Blagojev Kamen gold mine is now back in operation and is producing at its pre-war capacity.
4. Russian mining engineers are presently seeking out new mineral deposits in south Serbia.
